# SurePOS 700 Series

Take performance, efficiency and flexibility to a new high standard

# Increased efficiency and reliability means fast ROI, more profit

- > Advanced technology fuels store innovations with fast ROI
- > Virtually tool-free service and deep sleep streamline operations and lower costs
- > New configurations open more placement options
- > New, specially designed model allows more placement options
- > Scalable memory up to 8 GB adapts to changing business requirement

Innovative, retail-optimized technology makes the SurePOS 700 more valuable to retailers than ever before. With next generation Intel Core i3 processing as an option, scalable memory choices up to 8 GB, and hard disk or solid state drives options, the SurePOS 700 packs 10 percent to 50 percent more performance power;<sup>2</sup> faster processing and extra storage capacity to drive the most demanding consumer service and enterprise applications. High speed networking enables consumers and employees to rapidly access cross-channel offerings. Support for dual video displays with superior graphics helps deliver an engaging, interactive customer experience.

## Retailers need smarter store solutions

Toshiba's checkout solutions help retailers

- > Improve customer service
- > Reduce costs
- > Generate new revenue

## Keep your system up and running

Enable your stores to provide customer service on demand with easy-to-wake deep sleep, saving up to 47 percent in energy and optimizing staff time.<sup>1</sup>

Proactively diagnose and correct problems with Light-Path Management visual indicators.

Provide reliable service in the most harsh and rigorous store environments with Retail-hardened systems.

Lower service costs with virtually tool-free design.

Enable proactive monitoring and servicing with Remote Management Agent.

**Designed to make your business more efficient**

With a new low profile, the SurePOS 700 can be placed in more locations while promoting energy efficiency and easy maintenance.

Place the system under counters or tight spaces in the store—the SurePOS 700 has discreet air vents on the bezel which prevents overheating.

Maximize uptime and usability with virtually tool-free, secure and easy front access to internal components.

With a service lifecycle of up to seven years and highly scalable technology that integrates with legacy systems help retailers get maximum use of their SurePOS 700 now and into the future.

**Transform the point of sale to a cross-channel point of service**

The Toshiba SurePOS 700 models combined with industry-leading Toshiba software, system and data integration and management can take store solutions to new levels of power.

The SurePOS™ 700 is Toshiba's most powerful point-of-sale system, delivering:

- > maximum performance
- > serviceability
- > energy efficiency and adaptability

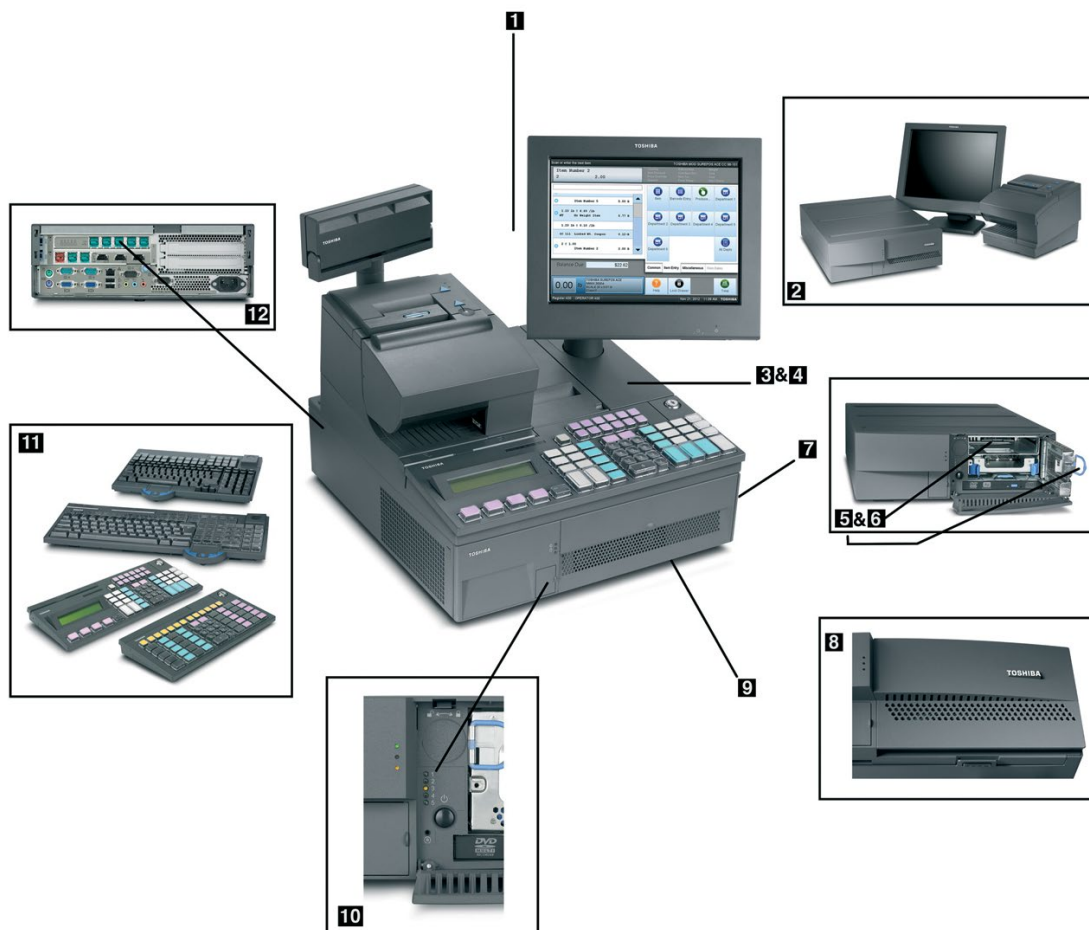

**New technology optimizes the next generation of store solutions****Innovative, retail-optimized technology makes the SurePOS 700 more valuable to retailers**

The SurePOS 700 packs 10 percent to 50 percent more performance power,<sup>2</sup>

- > Drives the most demanding consumer service and enterprise applications with faster processing and extra storage capacity.
- > Enables consumers and employees to rapidly access cross-channel offerings with high speed networking.
- > Delivers an interactive customer experience with dual video displays and superior graphics

# FEATURES

- 1** Shown: SurePOS 785 with 12 in. SurePoint display, SureMark dual-station printer, 67-key Keyboard with LCD, and 40-character display
- 2** Choose distributed or integrated configurations in choice of color with color-matched peripherals (all optional)
- 3** Next Generation Intel technologies deliver power for store applications now and into the future
- 4** Easy to wake deep sleep lets POS “nap” and lower energy costs
- 5** Virtually tool-free design and secure key lock front access to all components help reduce service time and costs
- 6** Solid state drive option helps speed performance, availability and reliability
- 7** Scalable memory up to 8 GB adapts to changing business requirements
- 8** New model with front vents promote airflow and minimize moving parts to reduce heat and help keep systems up and running
- 9** Toshiba Remote Management Agent (RMA) provides system management from a central location
- 10** Light-Path Management visual indicators proactively monitor system status and help avoid downtime
- 11** USB and PS/2 67-key, 67-key with LCD, ANPOS, and Compact ANPOS (all optional)
- 12** Selectable and upgradeable SurePorts enable retailers to use existing devices and connect customer or employee devices

# SPECIFICATIONS

Toshiba SurePOS 700 Technical Requirements
